TOTAL DEATHS REPORTED	9,586	100.00%

***NOTE:** There are 9,586 distinct U.S. patient deaths reported in VAERS through 6/4/2021, many of which occurred after multiple vaccines administered in the same visit. Therefore there are 15,465 instances totaled in this report, but each distinct row includes only distinct patient reports (no duplicates) and percentages are calculated as a percent of total database reports
