	% Total Carditis Adverse Events Attributed to Manufacturer	63.2%	33.2%	3.3%	0.3%		
	Manufacturer Carditis Mortality Index²: Proportion of Vaccines Administered Minus % Deaths Attributed to Manufacturer	10.3%	-1.8%	-5.2%	-3.3%		
	Manufacturer Carditis Safety Index²: Proportion of Vaccines Administered Minus % Adverse Events Attributed to Manufacturer	-9.6%	4.9%	4.9%	-0.2%		

Sources: <https://wonder.cdc.gov/vaers.html>
<https://covid.cdc.gov/covid-data-tracker/#vaccinations>

NOTE 1: There are 451,049 distinct U.S. adverse events following Covid-19 vaccinations, including 510 distinct U.S. Guillain-Barre events, 7,407 distinct U.S. blood clot events, and 2,136 distinct U.S. carditis events reported to VAERS through 8/6/2021. Numerous patients met multiple criteria; therefore there are 466,642 total reported medical diagnoses following Covid-19 vaccinations, which include 8,068 instances of blood clots, 552 instances of Guillain-Barre, and 2,336 instances of carditis meeting the report criteria outlined above. But each value displayed on this report includes only distinct patient records (no duplicates) and percentages are calculated as a percent of total patient reports received. For instance, if a patient received a first dose of Pfizer vaccine and a second dose of Moderna vaccine, that patient's record would populate two instances in two categories.

NOTE 2: The "Index" values displayed in this report represent the proportion of fully vaccinated U.S. residents who received that manufacturer's vaccine, less the proportion of reported adverse events attributed to recipients of that manufacturer's product. For instance, to date, 8.1% of fully vaccinated U.S. residents received the Janssen vaccine. As of 8/6/2021, 8.9% of Covid-19 vaccine-associated deaths reported to VAERS were patients who received Janssen vaccines. So the Overall Mortality Index for the Janssen vaccine is 8.1% - 8.9% = -.7%. The Overall Safety Index for the Janssen vaccine is the proportion of fully vaccinated U.S. residents who got the Janssen vaccine less the proportion of ALL adverse events reported for recipients of the Janssen vaccine, or 8.1% - 10.0% = -1.9%. (Figures are rounded for display; this note may display rounding errors.)
